### ***Brief description of training aim and content (half-page):***

1. Objectives
  - Diffuse knowledge of managing solid waste and protecting eco-environment in the reality
  - Making explanation of managing solid waste to each household.
  - Comprehend awareness of protecting environment for city officers
  - Create agreement in cooperating with functional organizations in implementing plan of replication of the project.
2. Content
  - Introduction about goals and objectives of Delgosea project.
  - Introduction of "Eco-Savers" project of Marikina, the Philippines
  - The management and implementation of Eco saver system project, including challenges, difficulties and solutions
  - The way to sustain Eco saver system project in terms of approach and finance.

This project is co-funded by the European Union.

A Project implemented by the consortium: Konrad-Adenauer-Stiftung e.V., Thailand Environment Institute (TEI), Local Government Development Foundation Inc. (LOGODEF), United Cities and Local Governments for Asia and Pacific (UCLG-ASPAC), Association of Indonesian Regency Governments (APKASI), Association of Cities of Vietnam (ACVN), and National League of Communes/Sangkats of the Kingdom of Cambodia (NLC/S).

- The origin of Eco Saver System project and resources for the project.

**Outcomes:**

- 38 participants from the different departments and social organisations of Vinh City attended the course and received a training certificate.
- Key decision-makers are aware of the program and actively support its implementation in terms of finances, integration into the local development plans and involvement of schools.

**Title of Training 2: Solid waste management at households and public participation in solid waste management**

**Date:** 20 August, 2011

**Venue:** Meeting room of Hung Dung ward People's Committee building.

**Number of Participants: 95**

- Staff of Hung Dung ward People's Committee and
- Representatives of Hung Dung communities.

***Brief description of training aim and content (half-page):***

1. Objectives
  - Diffuse knowledge of managing solid waste and protecting eco-environment in the reality
  - Making explanation of benefit from separation of solid waste at households.
  - Comprehend awareness of protecting environment for Hung Dung communities
  - Public participation in solid waste management
2. Content
  - Introduction about goals and objectives of Delgosea project.
  - Introduction of "Eco-Savers" project of Marikina, the Philippines.
  - The management and implementation of Eco saver system project, including challenges, difficulties and solutions.
  - The way to sustain Eco saver system project in terms of approach and finance.
  - How to classify the domestic waste on organic and recyclable components.

**Outcomes:**

- 95 participants from different blocks of Hung Dung ward and different social organisations attended the course and received a certificate.
- The training introduced the project objectives to the communities and the People Committee to gain their views as well as political support.

This project is co-funded by the European Union.

A Project implemented by the consortium: Konrad-Adenauer-Stiftung e.V., Thailand Environment Institute (TEI), Local Government Development Foundation Inc. (LOGODEF), United Cities and Local Governments for Asia and Pacific (UCLG-ASPAC), Association of Indonesian Regency Governments (APKASI), Association of Cities of Vietnam (ACVN), and National League of Communes/Sangkats of the Kingdom of Cambodia (NLC/S).

**Date:** 21 August, 2011

**Venue:** Meeting room of Hung Dung Secondary School Building.

**Number of Participants:** 80

- Head teachers of 3 schools, Primary school Hung Dung 1, 2
- Hung Dung Secondary school and parent union and
- Junkshop owners

***Brief description of training aim and content (half-page):***

1. Objectives
  - Diffuse knowledge of managing solid waste and protecting eco-environment in the reality
  - Making explanation of managing solid waste and benefit of separation of solid waste at households
  - How to communicate and work with pupils, their parents
2. Content
  - Introduction about goals and objectives of Delgosea project.
  - Introduction of "Eco-Savers" project of Marikina, the Philippines
  - The management and implementation of Eco saver system project, including challenges, difficulties and solutions
  - The way to sustain Eco saver system project in terms of approach and finance
  - The origin of Eco Saver System project and resources for the project.

**Outcomes:**

- 80 participants from 3 schools of Hung Dung ward and junkshop owners attended the course and received a training certificate.
- Eco-Savers enthuses a program of saving the ecological system among the city's constituents by being aware of certain sound environmental practices. It fashions people from the household level to be ecological solid waste management practitioners. And yet, economic savings are realized through this waste management.
- Capitalizing on waste management at source, the Eco-Savers Program has awakened and harnessed the culture of discipline and consequently the value of savings. The program has stimulated the consciousness of the community, thereby promoting waste segregation and recycling practices at the household level. Parents

This project is co-funded by the European Union.

A Project implemented by the consortium: Konrad-Adenauer-Stiftung e.V., Thailand Environment Institute (TEI), Local Government Development Foundation Inc. (LOGODEF), United Cities and Local Governments for Asia and Pacific (UCLG-ASPAC), Association of Indonesian Regency Governments (APKASI), Association of Cities of Vietnam (ACVN), and National League of Communes/Sangkats of the Kingdom of Cambodia (NLC/S).

of students have been highly involved in regularly interactive with teachers and city government personnel. The program also represents a definite advantage to the preservation of the community's health and the environment
